Campaign Spending: [List of Filers](#)

SMART GROWTH is necessary for a high quality of life. Lance Collins believes in a reasonable growth plan that: (a) develops areas where adequate roads and other support facilities already exist; (b) promotes diversified and specialized agriculture; (c) ensures water is distributed fairly and appropriately, with first priority going to the needs of our local families; (d) fosters a county water policy that ensures the community's long-term economic well-being; (d) requires affordable rental and ownership housing options for local residents; (f) encourages more open areas be set aside for public use and our children's generation; and (g) harmonizes and streamlines government regulations

The County Council's role is to SUPPORT OUR COMMUNITY. Lance Collins believes council members must: (a) develop programs and facilities that ensure a high quality of life for our seniors; (b) protect Hawaiian culture and cultural resources as the bedrock of our community; (c) honor the traditions and wisdom of all ethnic and cultural communities; (d) cultivate and support communities filled with vibrant social and cultural practices; and (e) promote open and participatory decision making at all levels of government.
